The thermometer Tuesday morning registered 30 degrees.

Now there is talk of a special call to congress for November 10. No rest for the weary.

Come to think about it, a lot of the ills of the present day, exists only in the headlines and in the minds of politicians.

The new woman senator from Georgia is said to play the guitar. Even that would be preferred to some of the talk that is heard in the senate.

This is a campaign of "hits." Wheeler "hits" Reed's stand on prohibition. Reed "hits" the Klan, and Brewster "hits" everything that Reed don't "hit."

Our senatorial candidates are both terribly mistaken—Reed thinks he's as wise or wiser than his Creator, and Brewster thinks he's as wise or wiser than Reed.

The Burley Tobacco Co-operators' Association composed of farmers in Kentucky, West Virginia, Ohio and Indiana has disposed of 54,000,000 pounds of tobacco for approximately \$14,000,000, at Lexington, Ky.

A remedy recently discovered called insulin, and extracted from pancreatic tissues, has been used with remarkable success in cases of diabetes. The experiments are being carried on at the Potter Metabolic Laboratory and Clinic in California supported in part by the Carnegie Corporation.

When the white, native born, Protestant Americans organize, a howl is set up of "religious prosecution." Other sects have their organizations and no objection is offered. Why all this hellaboo about the Klan? This being a free country, in theory at least, the aforesaid mentioned Americans are within their rights in having an organization of their own.

Train Service To Be Restored

The two Missouri Pacific passenger trains which were taken off during the summer, on account of coal shortage, will be put into service again, commencing with Monday, October 23rd.

Chronic Constipation.

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation. FARM BUREAU NEWS.

Project Committee Meets.

The Lafayette County Farm Bureau Project Committee met Saturday, October 14th at Higginville. About twenty members were in attendance. The County Agent reported his activities for the last ninety days. The majority of the time has been devoted to poultry culling work. Forty meetings being held with approximately 600 in attendance. Each person attending these meetings has agreed to pass the information on to two other people. This will make 1508 to 1880 farmers learning how to properly cull and feed laying hens. If each one culls 100 hens of which 30% are culls, at a saving in feed of 50% per head it will amount to \$25,000 saved to the farmers of Lafayette County. In carrying out demonstrations the County Agent has personally culled about 11,000 hens, 40% of which have been culls. This amounts to 4,400 culls and a saving of \$2200 in feed. Do you still think County Agent work does not pay?

Community Programs of Work.

The different communities in Lafayette County where there are some farm bureau members that want it, a community program of work will be laid out. How about your vicinity? If you and your neighbors can accomplish more in an organized way, get in touch with a few neighbors, your school teacher and County Agent and something will be planned.

Mr. W. H. Rusk, Swine Specialist, will be in Lafayette County a few days the first of this week and will speak at Hazel Hill Monday night, Slusher School Tuesday night and Cox School Wednesday night.

Chinch bugs was a live subject at the Project Committee meeting Saturday. One community has arranged for their destruction. Get in line and help.

DOES YOUR BACK ACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Lexington testimony.

Mrs. George Williams, 1801 Bloom St., says: "My back ached and pained dreadfully some five years ago. I used Doan's Kidney Pills and they certainly gave me fine relief. I was troubled with awful lameness and soreness in the small of my back at times. When I stooped over it was almost impossible to straighten because of the severe pains. Often little specks would come before my eyes, blurring my sight. My kidneys acted irregularly, causing me a lot of trouble. I became very nervous and weak and suffered most of the time. As another member of the family had used Doan's Kidney Pills with good success I got a few boxes and they entirely cured me of the trouble."

Dollars and Cents.

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months. Adv.

E. B. Campbell went to Kansas City yesterday on business.

Col. Sanford Sellers went to Kansas City yesterday to spend the day on business.

For The Children.

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effectual in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers. Adv.
